

## TRAINING & CERTIFICATION

### TRAINING & CERTIFICATION

#### Competence Creates Safety

The most advanced fall protection system is only effective when users are properly trained.

Competency-based training equips workers with the knowledge and practical skills required to identify hazards, use equipment correctly, and respond effectively during emergencies.

#### Training Standards

- Occupational Health and Safety Act
- Construction Regulations
- ISO 45001
- SAQA Accredited Programs
- Industry Best Practice Requirements

#### Training Programs

- Working at Heights
- Fall Arrest Systems
- Rescue Procedures
- Risk Assessment
- PPE Inspection
- Safety Representative Training
- Incident Investigation

#### Benefits

- Reduced incidents
- Improved compliance
- Increased productivity
- Better safety culture
- Enhanced worker confidence

## How DECAWAT Assists

DECAWAT provides:

- Accredited Training
- User Certification
- Refresher Courses
- Rescue Training
- Competency Assessments
- Site-Specific Awareness Training
